February 17, 2012
University of the Virgin Islands
St. Thomas Campus, Bldg. ACC 142-1B
#2 John Brewer's Bay
St. Thomas, US Virgin Islands 00802

Overview

On February 16, 2012 in St. Croix, USVI, and on February 17, 2012 in St. Thomas, USVI, the Medical University of South Carolina (MUSC), the Caribbean Exploratory NIMHD Research Center and the University of the Virgin Islands (UVI) are sponsoring two one-day Technical Assistance Workshops to provide individuals and groups with the grant management and communication skills necessary to have successful community projects. In addition, the session will focus on climate change and public health issues relating to Grant#: 3P20MD002286-05S1 entitled: Implementation of On-the-Ground Mobilization Campaigns in Climate-Health.

The program emphasizes essential “how-to” skills needed to manage grants and projects. In this session, experts will discuss the program/financial management framework after a grant is approved for funding.

Technical Assistance Workshops

Progress requires informed and active leaders. The purpose of these Technical Assistance Workshops is to reinforce this principle and to emphasize the unique relationship between environmental protection, human health, environmental justice and economic development as an essential part of community development.
