- AUDIENCE AND COMMUNITY PARTICIPATION

The purpose of this Listening Session is to gain input from stakeholders that will assist policy makers in the development of forward-thinking, comprehensive environmental health policy that recognizes and fosters the unique relationship between environmental protection, human health, environmental justice and economic development. For 2002-2003, the NEPC is focused on international, labor, housing and transportation issues as they relate to this policy.

*- Congressman James E. Clyburn (SC)
Congressional Black Caucus*
